"I'm so honored to work with this great group of guys on this video," Rick says. "We used U.S. playing cards along with customized De'vo Chrome Kings and Banshee Throwing Cards."

A Slow Motion Phantom Camera recorded all of the action at about 20,000 frames per second in the ultra-high precision arena. Rick's many feats include slicing a flying olive in half, striking targets behind him with pinpoint accuracy, and hitting a distant hoop raised 25 feet. His Dude Perfect throwing card appearance also includes several tricks that he performs for audiences around the world.

"We plan on updating my YouTube channel with new content to keep things exciting," Rick says, noting that his channel will have more magic, card throwing stunts, and tutorials.
